QFP 20:30 Elizabeth Fry 1833

It appears to me to be one important means of helping the human mind in a healthy state, that in recreations which are needful of it, it should be trained as much as possible to look to those things that bring profit as well as pleasure with them. My observation of human nature and the different things that affect it frequently leads me to regret that we as a Society wholly give up delighting the ear by sound, surely, He who formed the ear and the heart would not have given these tastes and powers without purpose for them
